

Commercial Credit

Regions offers the products, flexible terms and expertise to meet any credit need.

Regions Commercial Credit professionals are dedicated to meeting your needs and managing a long-term relationship with you. They are committed to understanding the fundamentals of your business and recommending unique, targeted financing alternatives that work. Special benefits of Regions Commercial Credit include:

Team of specialists

Your relationship team includes specialists with expertise across industry and product groups from healthcare to dealer finance. So you can count on superior financing solutions specific to your industry.

Flexible options

Regions is committed to rate, payment terms and other structure alternatives that work for your business.

Interest rate risk management

Enjoy access to nontraditional market instruments for debt financing using hedging instruments to protect your business against interest rate risk. A corporate finance specialist and your relationship team can help structure an interest risk management strategy based on your capital structure and business cycle.

Regions Commercial Credit has a wide array of specific loan types to meet your company's specific needs.

TERM LOANS

With a Regions fixed- or variable-rate loan featuring a fixed maturity, you can purchase new equipment, vehicles or aircraft, finance leasehold improvements or secure long-term working capital.

REAL ESTATE LOANS

Purchase or refinance facilities or property with one of our fixed- or variable-rate real estate loans. Look to Regions for financing of your storefront, warehouse, medical facility, factory, land or refinance of an existing property.

LINES OF CREDIT

An open-ended line of credit with a variable interest rate provides flexible financing that changes with the market. This flexibility allows you to make draws for immediate needs including working capital for equipment, seasonal needs or general purchases.

INTEREST RATE RISK MANAGEMENT

Capital Markets Specialists create investment positions for each credit and enables Regions to offer more competitive fixed-rate loans for longer periods. The end result is an attractive interest rate.

SPECIALIZED LENDING

Take advantage of industry-specific lenders in areas such as healthcare, dealer finance, credit enhancement, public finance and asset-based lending to create a specialized financing structure for you.
