

Comdata Has Changed our Banking Partner for Draft Clearing

Comchek drafts have been migrated to a new clearing bank, Wells Fargo. The new checks are green to help distinguish them from the older versions, which are blue. This also includes any printer check paper you may have.

What do you need to do?

Take inventory of your existing draft stock and place an order through the normal www.OrderComcheks.com to replace your old drafts with the new, updated version. Please destroy any blue, Regions Bank stock, as they will no longer be accepted and will be returned.

Sample of new Comchek draft:

COMDATA Comchek MOD 9 DSR 0000000000

Pay to the order of _____ Date _____
